Teacher's Guide

- **Skill Focus:** Reinforces understanding of how **either** is used to offer one of two positive options and **neither** is used when both are negative or rejected.
- **Differentiation Tips:**
 - Provide sentence stems for beginners to finish aloud before writing.
 - For advanced learners, ask them to explain why they chose one determiner over the other.
- **Engagement Idea:** Create a classroom "choice game" where students stand for "either" and sit for "neither" after hearing a sentence.
- **Extension Activity:** Have students write five new sentences using both determiners correctly, then exchange with a partner to check for accuracy.
