Emoji Studios

Every movie, story, or game belongs to a **genre** - a type of story world that sets the mood, action, and style. Artificial intelligence (AI) can use emojis as clues to guess what kind of story it should imagine. Look at each group of emojis below. Each set represents a *story idea* that an AI might turn into a movie or scene.

Your job: Choose the **genre** that best matches the emoji set. Then, write one short sentence describing what you think the AI's story or image might look like.

1. 👨🏻‍💼 ♀️ 🏙️ 🔥   A. Mystery   B. Superhero   C. Fantasy   D. Romance

AI Story Idea: _____
