## Making Sense of Chaos

Emojis are tiny ideas, but when they're scrambled, they can turn into total chaos - or creative gold. Your job is to take a random set of emojis and rearrange them into an order that actually *makes sense*. Pretend you're the director of an emoji movie: you decide what happens first, what belongs together, and what story the emojis are secretly telling.

After you reorder them, describe what kind of *image or text* an AI might create from your new combo - then give your masterpiece a clever title. This activity helps you think flexibly, see patterns, and turn nonsense into narrative.

**Example - Emoji Set:** 🦖 🎂 🌊 🎩 **Your Order:** 🎂 🎩 🦖 🌊

**AI Might Create:** "A fancy dinosaur wearing a top hat celebrates a seaside birthday party before diving into the waves."

**Title:** *Jurassic Splash Bash*
