

Mood Swings and Microchips Answer Key

1. 😐 - The AI might label this as *neutral* or *unimpressed* because the mouth is a straight line and the eyes show no emotion.
2. 😄 - AI could identify this as *happy* or *positive* based on the wide smile and open eyes.
3. 😠 - The eyebrows tilt down, and the mouth curves sharply - clear signals of *anger* or *frustration*.
4. 😞 - The tear drop and downturned mouth would likely tell the AI that this face is *sad* or *upset*.
5. 🤩 - Sparkling star eyes might be tagged as *excitement*, *amazement*, or *awe*.
6. 😳 - Blushing cheeks and wide eyes could indicate *embarrassment*, *shock*, or *surprise*.
7. 😴 - The "Z" symbol means *sleeping* or *tired*; the AI might read this as *rest* or *boredom*.
8. 🤔 - A tilted head with a hand on the chin suggests *thinking*, *curiosity*, or *confusion*.
9. 😎 - Sunglasses are associated with *confidence*, *coolness*, or *relaxation*.
10. 😨 - Wide eyes and open mouth would signal *fear*, *shock*, or *alarm*.
11. 😍 - Hearts around the face mean *love*, *affection*, or *warm feelings*.
12. 😜 - Uneven eyes and a crooked smile show *silliness*, *goofiness*, or *playful energy*.
