### Teacher's Guide

- **Differentiation Tips**

- Review each ending blend sound with the class before the activity. Use oral examples to reinforce.
- For emerging readers, say the base aloud and have them listen for the sound that finishes it.
- Provide a **word bank** for students who need visual support to choose from.

- **Engagement Ideas**

- Let students write completed words on small whiteboards and hold them up for instant feedback.
- Play a game where students guess which blend their classmate used by hearing the full word read aloud.

- **Extension Activities**

- Ask students to **use 3 of their completed words in a short sentence** or silly story.
- Invite them to **draw one of the blend words** and label it clearly to reinforce vocabulary and spelling.
