9. back
10. rush

Teacher's Guide

- This worksheet helps students connect **word meaning** with **ending digraph spelling**, strengthening vocabulary and phonics together.
- Offer support by having students say the word slowly and listen for the ending sound before choosing a digraph.
- For differentiation, allow students who need more guidance to choose from a **small digraph word bank**. Challenge advanced students by having them write their own clue for one completed word.
- For engagement, let students act out or draw one clue and have partners guess the correct digraph word.
