

Name _____

Length Range Hunt Answer Key

1. A
2. B
3. B
4. B
5. C
6. A
7. B
8. C

Teacher's Guide

- Review the three measurement ranges before students begin.
- Encourage students to visualize each object rather than guess an exact measurement.
- For support, show students a ruler and point out 10 cm and 50 cm as benchmarks.
- For differentiation, allow students to examine similar real objects before choosing a range.
- Increase engagement by having students predict the range before checking an actual object.
- As an extension, have students find three classroom objects and classify each into one of the measurement ranges.
