

Name _____

School Measure Quest Answer Key

- | | |
|-------------|--------------|
| 1. B. 2 m | 5. A. 500 mL |
| 2. A. 18 cm | 6. A. 30 in. |
| 3. B. 30 m | 7. B. 4 L |
| 4. C. 5 kg | 8. C. 2 lb |

Teacher's Guide

- Ask students to picture each school object or location before choosing an estimate.
- Reinforce that a reasonable estimate requires both an appropriate number and unit.
- For support, review familiar benchmarks such as a 30 cm ruler, 1 m, 1 L, and 1 kg.
- For differentiation, let students compare selected questions with actual objects in the classroom.
- Increase engagement by having students identify which measurements they could check around their own school.
- As an extension, have students choose three school objects or locations and create reasonable measurement estimates for them.
