

Name _____

Benchmark Choice Answer Key

- | | |
|--------------------|--------------------|
| 1. 1 meter | 6. 5 kilograms |
| 2. 3 centimeters | 7. 150 liters |
| 3. 2 meters | 8. 10 meters |
| 4. 200 grams | 9. 250 milliliters |
| 5. 500 milliliters | 10. 25 pounds |

Teacher's Guide

- Encourage students to picture each object before comparing the two benchmarks.
- Review familiar references for centimeters, meters, grams, kilograms, milliliters, liters, and pounds.
- For support, let students eliminate the benchmark that is clearly too large or too small.
- For differentiation, provide real classroom objects or measuring tools as references.
- Increase engagement by having students compare answers with a partner and explain one choice.
- As an extension, have students choose three familiar objects and create two benchmark choices for each.
