### Teacher's Guide

**Purpose:** This worksheet helps Grades 6 to 8 students understand European regional divisions by classifying countries into Northern, Southern, Eastern, and Western Europe.

### Teaching Tips

- Review regional characteristics before assigning the task.
- Encourage students to think about climate, culture, and geography.
- Use a classroom map to point out borders and general regional patterns.

### Differentiation

- Provide a labeled regional map for students who need visual support.
- Allow students to work in pairs to aid discussion and reduce frustration.
- For advanced learners, challenge them to add two more countries to each region.

### Engagement Ideas

- Have students choose one region and describe what life might be like there.
- Invite students to share any music, foods, or traditions they associate with different European regions.
