Teacher's Guide

Purpose: This worksheet helps Grades 3 to 5 students build foundational geography knowledge by matching major European countries with their capitals.

Teaching Tips

- Review pronunciation of countries and capitals before the activity.
- Encourage students to look for clues in the word endings or familiar names they may have heard.
- Allow students to work with a partner for discussion before writing final answers.

Differentiation

- Provide a smaller list of choices for students who need extra support.
- For advanced students, challenge them to add one interesting fact about each country after they match them.
- Offer verbal matching practice first for students who benefit from oral rehearsal.

Extension Activity: Students research an additional European country and its capital to share with the class.
