

Name _____

Missing Costs Answer Key

1. \$825
2. \$550
3. \$475
4. \$880
5. \$530
6. \$800
7. \$475
8. \$910

Teacher's Guide

- Quick implementation: Remind students to add the known expenses first, then subtract that sum from the total.
- Differentiation: Provide the setup, $\text{Total} - \text{Known Expenses} = \text{Missing Expense}$, for students who need support.
- Engagement: Have students act as bookkeepers completing missing entries in monthly business records.
- Extension: Ask students to verify two answers by adding all four expenses and checking that the sum equals the stated total.
