## Fact or Fiction: Detective Edition

**Instructions:** You are a **Fact Detective**! Below are 10 statements. Your job is to read each one carefully and **decide if it is FACT or FICTION**. Then, write a short explanation (1–2 sentences) for **why** you think it's fact or fiction. Use logic, prior knowledge, or clues in the wording.

### Statements:

1. Bananas grow on trees in tropical regions and are classified as fruit.
2. Lightning never strikes the same place twice.
3. The Eiffel Tower can grow over 6 inches taller in the summer.
4. Humans only use 10% of their brains.
5. Penguins live at the North Pole.
6. Honey never spoils and has been found in ancient Egyptian tombs.
7. Bats are completely blind and rely only on echolocation.
8. Goldfish only have a 3-second memory span.
9. The Earth revolves around the Sun once every 365.25 days.
10. Tomatoes are classified as vegetables by scientists.
