## Scroll and Sort – Social Feed Edition Answer Key

### Explanation of Each Post:

1.  **Fact** – Octopuses *do* have three hearts, and their blood contains hemocyanin, which makes it appear blue.
2.  **Fiction** – No verified discovery of alien bases in Antarctica; this is a conspiracy theory.
3.  **Fact** – Lincoln was a skilled wrestler and is honored in the Wrestling Hall of Fame.
4.  **Fiction** – The "Taylor Swift is a time traveler" theory is a joke/conspiracy, not based in fact.
5.  **Fact** – Historically, carrots were purple before orange varieties were cultivated.
6.  **Fact** – Sloths can slow their heart rate and hold their breath for long periods — longer than dolphins.
7.  **Fiction** – No scientific evidence of other-dimensional doorways in the Grand Canyon.
8.  **Fact** – NASA has speculated about a potential ninth planet (often called Planet Nine) based on gravitational effects, visible only in infrared.
9.  **Fiction** – While goldfish are smart, there's no real evidence of backflipping goldfish trained like performers.
10.  **Fact** – Despite the myth, the Great Wall is *not* visible from space with the naked eye.
