

Quick Count Check Answer Key

1. few
2. less
3. few
4. less
5. few

Teacher's Guide

- **Focus Skill:** Understanding the difference between **few** (countable nouns) and **less** (uncountable nouns).
- **Differentiation Tips:**
 - Review quick examples of countable vs. uncountable nouns before the quiz (e.g., apples vs. water).
 - Provide word cues for learners who need support, such as "Can you count it?" to help with decision-making.
- **Engagement Ideas:**
 - Use this as an "exit ticket" by collecting answers at the end of class for quick comprehension checks.
 - Turn it into a mini competition where students raise hands to vote for **few** or **less** as sentences are read aloud.
- **Extension Activities:**
 - Have students create one additional sentence of their own using both words correctly.
 - Ask learners to explain one example aloud, describing how they knew whether the noun was countable or not.
