## Logic In The Clouds Answer Key

Inference #	Matching Evidence Letter	Explanation
1	B	The division of roles shows organization and teamwork.
2	A	The description of dangerous weather conditions highlights physical danger.
3	D	Evidence shows their data directly helps save lives, improving safety.
4	E	Their motivation is tied to learning and helping meteorologists—driven by curiosity and purpose.
5	C	Heading “toward danger” shows their willingness to take risks for their mission.

### Teacher Notes / Teacher’s Guide

**Objective:** Students will practice connecting **explicit textual evidence** to **logical inferences or conclusions**, reinforcing how readers use details to interpret meaning beyond what’s directly stated.

### Teaching Tips:

- Begin by defining the difference between **evidence** (what the text says) and **inference** (what readers figure out based on clues).
- Have students underline the key words in the evidence that “prove” their match.
- For added challenge, ask students to explain *why other evidence options don’t fit* each inference.
