

Directions Shouldn't Feel Like Spaghetti

Ever tried to follow directions that were all jumbled up? It's like trying to brush your teeth *after* eating the toothpaste. Confusing, right? Clear instructions always follow a logical order. In this activity, you'll be given messy prompts where the steps are scrambled. Your mission is to **untangle the chaos**: put the steps back into an order that actually makes sense.

Think of yourself as the "instruction editor." Your job is to read the scrambled steps carefully. Reorder them so someone could follow them without getting lost. Number each step (1, 2, 3...) to show the proper sequence.

1. Brushing Your Teeth (Messy):

- Rinse your mouth with water.
- Brush your teeth in small circles.
- Put toothpaste on your toothbrush.
- Get out your toothbrush.

Clear Order

1. _____
2. _____
3. _____
4. _____

2. Planting a Seed (Messy):

- Cover the seed with soil.
- Fill a small pot with soil.
- Water the soil gently.
- Place the seed in the soil.

Clear Order:

1. _____
2. _____
3. _____
4. _____
