

Name _____

Rule Reflection Answer Key

Answers will vary. Example:

I was part of my science project group. The rule was to take turns speaking and listen to each other's ideas. Following this rule helped everyone share their thoughts, and our project looked great. I felt proud that we worked together calmly and fairly. If we hadn't followed the rule, we might have argued and not finished on time.

Teacher's Guide:

- **Differentiation Tips:**
 - Allow students to draw their response first if writing is challenging.
 - Provide sentence starters such as "One time I followed a rule when..." or "Following the rule helped because..."
- **Engagement Ideas:**
 - Have students share their stories aloud or in small groups to practice verbal communication.
 - Create a "Rule Heroes" board where students post short versions of their stories.
- **Extension Activities:**
 - Ask students to write a second paragraph about a time when following a rule was difficult but still important.
 - Turn the reflections into a class book titled "We Follow the Rules."
