- **Differentiation Tips:**
  - For emerging readers, read the rules aloud and provide picture cards of each setting.
  - Offer two-choice versions for students needing extra support.
- **Engagement Ideas:**
  - Use a "Walk Around and Match" activity: post settings around the room and let students stand by the rule they think fits.
  - Discuss why each rule matters and how it helps everyone stay safe and respectful.
- **Extension Activities:**
  - Have students create posters showing one of the settings with illustrated examples of following the rules.
  - Encourage students to come up with new settings (like field trips or assemblies) and brainstorm fitting social rules.
