## Time Fix Mission

**Directions:** Read the paragraph below. Some sentences use *for* and *during* incorrectly. Find and fix the mistakes by rewriting the whole paragraph with the correct prepositions.

I helped my cousin bake cookies for the school bake sale during two hours. The kitchen smelled amazing for the entire time we worked. During the afternoon, our friends stopped by to taste the cookie dough. We laughed for the baking and made a mess on the counter. My cousin played music during the whole process, and we danced for each song.
