

Name _____

Quantity Match Answer Key

1. I
2. C
3. E
4. D
5. F
6. A
7. G
8. H
9. B
10. J

Teacher's Guide

- Review the strategy: divide by the denominator, then multiply by the numerator.
- Encourage students to solve every expression before looking for its match.
- Support students by allowing them to cross out answer choices as they are used.
- Have pairs compare matches and explain the steps they used for one or two problems.
- Increase engagement by timing the activity as a "match challenge" after students understand the process.
- Extend learning by asking students to write three new fraction expressions and create matching answer choices for a classmate.
