

Name _____

Estimate And Solve

Directions: Before solving, decide if the value will be less than (<), equal to (=), or greater than (>) the benchmark. Then find the exact answer.

#	Fraction	Benchmark	Estimate (<, =, >)	Exact Answer
1	$\frac{1}{4}$ of 20	10		
2	$\frac{1}{2}$ of 18	9		
3	$\frac{3}{4}$ of 16	10		
4	$\frac{2}{3}$ of 12	10		
5	$\frac{4}{5}$ of 25	18		
6	$\frac{1}{3}$ of 21	8		
7	$\frac{5}{6}$ of 24	20		
8	$\frac{3}{8}$ of 32	10		
9	$\frac{2}{5}$ of 30	15		
10	$\frac{7}{10}$ of 40	30
