

Operation Choice Answer Key

1. Addition
2. Subtraction
3. Division
4. Multiplication
5. Subtraction
6. Multiplication
7. Division
8. Addition
9. Subtraction
10. Multiplication

Teacher's Guide

- Quick implementation tips
 - Remind students to look for clue words such as "altogether," "left," "each," and "of."
 - Have students explain why they chose each operation before checking answers.
- Differentiation strategies
 - Provide an operation clue chart for students who need support.
 - Read problems aloud for students who benefit from auditory input.
 - Challenge advanced students to write the matching equation after choosing the operation.
- Engagement ideas
 - Turn the activity into an "Operation Match" game by having students hold up operation cards.
 - Let pairs discuss and defend their choices before sharing with the class.
- Extension activities
 - Have students solve two of the problems after identifying the operation.
 - Ask students to write one fraction word problem for each of the four operations.
