Teacher's Guide

Purpose

- Strengthen map-reading and spatial reasoning skills for grades 6 to 8.
- Build understanding of France's borders, directionality, and regional features.
- Support students in using cardinal directions and geographic context to explain location.

Engagement Ideas

- Use a quick guessing game where students identify neighboring countries based on clues.
- Show satellite images of France to highlight water borders and mountain regions.
- Ask students to describe the fastest route from Paris to another European capital.
