9. True.
10. True.

### Teacher's Guide

#### Purpose

- Help students in grades 8 to 10 identify and correct common misconceptions about France.
- Build critical thinking skills when evaluating stereotypes versus factual information.

#### During the Activity

- Read statements aloud and ask students which clues reveal a myth.
- Allow students to rewrite false statements using accurate information.

#### Differentiation Tip

- Provide a fact sheet about France's geography, culture, and demographics for support.

#### Engagement Ideas

- Play a short warm-up game where students guess if a France fact is real or invented.
- Ask students to share myths they have heard about other countries and why they exist.
