|------------|------------|
| 1. Seine | 5. Seine |
| 2. Rhône | 6. Loire |
| 3. Loire | 7. Rhône |
| 4. Garonne | 8. Garonne |

Teacher's Guide

Purpose

- Strengthen French geography skills by helping students identify major rivers.
- Build knowledge of how rivers connect to cities, regions, and landmarks.
- Support grades 4 to 6 in using clues and geographic reasoning.

During the Activity

- Read clues aloud and discuss how each clue gives location or landmark hints.
- Encourage students to underline words that help identify the river.
- Guide students to compare rivers by length, direction, and nearby cities.

Engagement Ideas

- Show real photos of each river and the cities they pass through.
- Do a quick warmup where students guess the river when shown a landmark like the Eiffel Tower or Lyon.
- Let students vote on which river they would most like to explore by boat.

Extension Ideas

- Have students draw a simple map of France and sketch the four rivers.
- Invite students to research one interesting fact about each river.
- Encourage students to compare one French river to a river in their own country.
