Name _____

Survey Scoop Answer Key

1. Pizza.
2. Soup.
3. 6 students.
4. 28 students.
5. 4 students.
6. 2 students.
7. 14 students.
8. 6 students.
9. 10 students.
10. 7 students.

Teacher's Guide

- Review that frequency tells how many times each response was recorded.
- Have students locate the needed categories before calculating each answer.
- For support, let students underline key words such as most, least, more, fewer, and combined.
- For additional support, allow students to write addition or subtraction equations beside questions 4 through 10.
- Increase engagement by asking students to predict the most popular lunch before reading the table.
- For a challenge, have students write two additional questions that can be answered using the table.
- Extend the activity by conducting a quick class survey and answering similar questions using the new results.
