## Frog and Toad Problems Answer Key

(Sample Response for *Spring*)

Case Title (Story Name): *Spring*

**The Problem (What goes wrong?):**

Toad wants to keep sleeping even though Frog tells him it is springtime.

**The Solution (How it was fixed):**

Frog tears a page off the calendar each day for a whole month. At last, Toad wakes up ready to go outside.

**What This Shows About Friendship:**

This shows that Frog is patient and loyal. He stays with Toad even when Toad is grumpy, proving that real friends wait for and support each other.

**Extension Activity (Example):**

If Frog had not been patient, he might have gone outside alone. Toad would have missed the joy of spring, and their friendship might have felt less strong.
