## Frog and Toad's Next Tale Answer Key

### Sample Responses:

*Note: Answers will vary, but here is an example to guide teachers.*

### Sample Student Writing:

“One sunny morning, Frog and Toad decided to try something they had never done before. They went to the big hill outside their town because they wanted to fly a kite together. At first, the kite kept falling down, and Toad complained that it would never fly.

But Frog encouraged him to try again and again. Finally, the kite lifted high into the sky, and both of them laughed and shouted with joy. At the end of the day, Frog and Toad felt proud that they didn't give up. Their adventure showed that good friends keep trying together, even when things are hard.”
