

Name _____

Difference First

Directions: Write the front-end value of each number. Then subtract to estimate the difference.

Example: $87 - 32 \rightarrow 80 - 30 = 50$

1. $76 - 41 \rightarrow \underline{\quad} - \underline{\quad} = \underline{\quad}$

2. $95 - 23 \rightarrow \underline{\quad} - \underline{\quad} = \underline{\quad}$

3. $684 - 251 \rightarrow \underline{\quad} - \underline{\quad} = \underline{\quad}$

4. $937 - 412 \rightarrow \underline{\quad} - \underline{\quad} = \underline{\quad}$

5. $758 - 326 \rightarrow \underline{\quad} - \underline{\quad} = \underline{\quad}$

6. $4,862 - 2,341 \rightarrow \underline{\quad} - \underline{\quad} = \underline{\quad}$

7. $7,495 - 3,218 \rightarrow \underline{\quad} - \underline{\quad} = \underline{\quad}$

8. $9,684 - 5,127 \rightarrow \underline{\quad} - \underline{\quad} = \underline{\quad}$

9. $8,356 - 2,714 \rightarrow \underline{\quad} - \underline{\quad} = \underline{\quad}$

10. $6,923 - 1,548 \rightarrow \underline{\quad} - \underline{\quad} = \underline{\quad}$
