### Teacher Notes / Guide

- **Purpose:** This worksheet engages imagination while reinforcing grammar by having students create **realistic or imaginative predictions**.
- **Flexibility:** Teachers may allow students to predict about classmates in class, or about celebrities/characters they know well.
- **Common Errors:** Students may forget “be” in the structure (*will studying* instead of *will be studying*).
- **Extension:** Have students share their predictions aloud and turn them into a class “Future Predictions Wall” to showcase correct usage.
