14. will be relaxing
15. will be working

### Teacher Notes / Guide

- **Tip for Students:** The **future continuous tense** expresses an action that will be happening at a specific time in the future. It often answers the question "*What will be happening then?*"
- **Extension Activity:** Ask students to write 3 original sentences about what they *will be doing* next weekend, using the future continuous tense.
- **Common Errors to Watch:** Forgetting "be" (e.g., *will working* instead of *will be working*) or forgetting the **-ing** form of the verb.
