### Teacher Notes / Guide

- **Purpose of the Activity:** This worksheet trains students to **form and apply the future perfect continuous tense** correctly in practical, academic, and professional contexts.
- **Key Reminder for Students:** The tense always combines *duration + ongoing action up to a future point*. It is not just about "will do," but "will have been doing."
- **Teaching Tip:** Ask students to circle the **time marker** in each sentence (e.g., *by next summer, by midnight, by 2030*) before filling in the blank. This helps them recognize the future reference point needed for the tense.
- **Extension Activity:** Have students create 3 original sentences about their own lives/goals using this tense (e.g., *By next year, I will have been playing basketball for four seasons.*).
