Teacher Notes:

- Many students confuse **future perfect** with **simple future**. Stress that the word **"have"** must always appear.
- Encourage students to underline the **time expression** ("by tomorrow," "before the test") - these signal the need for the future perfect tense.
- Have students practice **short answers** to reinforce usage (e.g., *Yes, I will have completed it / No, I won't have completed it*).
- Extension: Students create 3 of their own prompts, swap with a partner, and form new questions.
