

Name _____

Ten-Year Predictions Answer Key

Since this is a **creative writing activity**, answers will vary. Below are **sample correct sentences** that demonstrate proper use of the **future perfect tense**:

Sample Paragraph:

In 10 years, I **will have graduated** from college. By then, I **will have traveled** to at least five different countries. I **will have learned** to play the guitar and speak another language. My family **will have celebrated** many important milestones together. By the time I am 25, I **will have started** my first career job.

Teacher Notes:

- Look for “**will have + past participle**” as the required structure.
- Students often forget the word “**have**” (e.g., *will graduated* instead of *will have graduated*).
- Encourage students to underline or highlight their five **future perfect verbs** in the paragraph to self-check.
- Extension activity: Pair students to exchange paragraphs and underline each other's use of the future perfect tense.
