### Teacher's Guide

#### Purpose

- Support grades 4 through 6 in identifying important physical features of Germany.
- Build students' knowledge of rivers, mountain ranges, forests, and regions.
- Strengthen multiple-choice test-taking strategies tied to content.

#### Instructional Tips

- Review vocabulary such as **river**, **region**, **plain**, and **range** before beginning.
- Encourage students to eliminate obviously incorrect answers.
- Have students justify why their chosen answer makes sense.

#### Differentiation

- Allow students to answer in pairs for the first few questions.
- Offer challenge questions, such as naming one additional river or region in Germany.

#### Extension Activities

- Have students create a short paragraph describing a pretend journey across one physical feature.
- Ask students to compare the Alps with another mountain range they have studied.
