Teacher's Guide

- **Skill Focus:** This worksheet helps students understand how **verb tense** affects verb choice, reinforcing the difference between present (get), past (got), and past participle (gotten).
- **Differentiation Tips:**
 - For support, provide a brief mini-lesson on **time clues** like *yesterday*, *has*, and *every day* before the activity.
 - Challenge advanced students to create their own sentences using each form correctly.
- **Engagement Ideas:** Turn this into a "Tense Detective" game-students highlight clues that helped them choose the right verb form.
- **Extension Activity:** Ask students to write a short paragraph titled "A Time I Got Something Great" using **get**, **got**, and **gotten** correctly at least once each.
