### Teacher's Guide

- **Skill Focus:** Students practice identifying and correcting tense errors with **get, got, and gotten**, strengthening understanding of **verb tense agreement** and **past participles**.
- **Differentiation Tips:**
  - For struggling learners, highlight the time clues (e.g., *yesterday, have, every day*) before correcting.
  - For advanced learners, have them explain *why* they changed each verb form.
- **Engagement Ideas:** Turn this into a "Grammar Mechanic" challenge where students "repair" each broken sentence on a whiteboard.
- **Extension Activity:** Ask students to write a short story called "How I Got Better at Something," correctly using **get, got, and gotten** at least once each.
