Teacher's Guide

- **Skill Focus:** This worksheet develops students' understanding of **verb tense consistency** and helps them distinguish between **get, got, and gotten** through meaningful sentence contexts.
- **Differentiation Tips:**
 - Review the time markers (*every weekend, last month, has, by now*) with students before beginning.
 - For extra support, have students underline the time clue before selecting their answer.
- **Engagement Ideas:** Create a "Verb Race" where pairs of students read sentences aloud and race to fill in the correct form first.
- **Extension Activity:** Have students write a short diary entry titled "How I Got Better at Something" that includes all three forms of the verb correctly.
