Teacher's Guide:

- Begin with a short class discussion about **why kind words matter** and how they make others feel.
- Support younger or emerging writers with **picture cues or adjective cards** (e.g., "helpful," "funny," "caring").
- Encourage students to **use their word bank** in later writing, role-play, or journaling activities.
- Extension idea: Create a classroom **"Compliment Wall"** where students can post words or phrases from their lists to inspire kind speech all week.
