## Trade Talkers Answer Key

1. **Protectionism** - Supports tariffs and domestic production.
2. **Globalization** - Encourages trade cooperation and open markets.
3. **Protectionism** - Seeks to limit foreign ownership to protect jobs.
4. **Globalization** - Promotes collaboration to address global issues.
5. **Globalization** - Emphasizes international exchange and innovation.
6. **Protectionism** - Focuses on safeguarding local workers from global competition.

### Teacher's Guide:

- **Skill Focus:** Identifying economic perspectives and understanding global policy approaches.
- **Differentiation Tips:**
  - For struggling learners, review definitions and provide examples of **tariffs**, **imports**, and **trade barriers** before starting.
  - For advanced students, ask them to explain how each policy type might impact both domestic and global economies.
- **Engagement Idea:**
  - Conduct a "Global Trade Summit" debate where half the class argues for globalization and the other half for protectionism using the statements as evidence.
- **Extension Activity:**
  - Have students research one real-world leader or organization (e.g., WTO, IMF, or a national government) and summarize their stance on global trade in a short paragraph.
