

Name _____

Digital Connections Answer Key

1. Mei's story - Technology helps her with payments and communication, making her daily life faster and more connected.
2. Diego's story - Technology allows his family business to reach more customers and expand through online tools.
3. Aisha's story - Technology provides education and global opportunities, inspiring her to create positive change.

Reflection: Technology links people globally through communication, trade, and shared learning.

Teacher's Guide:

- **Skill Focus:** Summarizing informational text and identifying global connections through technology.
- **Differentiation Tips:**
 - For struggling readers, preview key vocabulary (e.g., *virtual*, *connect*, *global*) before reading.
 - For advanced learners, ask them to add a fourth first-person account from another country.
- **Engagement Idea:**
 - Have students share how they use technology in their own daily lives and compare it to one of the narrators.
- **Extension Activity:**
 - Encourage students to research one technological invention that has connected people worldwide and present a short summary.
