## Global Facts Check

**Directions:** Read the short article about globalization below. Then, **underline factual statements** and **cross out opinion statements**. Use context clues to decide whether each sentence can be proven true or expresses personal belief or judgment.

### The Reach of Globalization

(1) Globalization is the process through which countries become linked by trade, technology, and communication. (2) Today, a smartphone sold in one country may include parts made in over ten different nations. (3) The increase in digital technology has made the global economy more efficient and connected. (4) Many people believe that globalization has made life more exciting and diverse. (5) Critics argue that large corporations gain too much power in a globalized world. (6) International trade agreements often reduce tariffs, making it easier for goods to move across borders. (7) Globalization is clearly the best path toward peace and equality.

(8) In 2022, over 60% of the world's population used the internet to communicate and share information. (9) Some communities worry that local cultures could disappear as global products dominate markets. (10) Despite challenges, globalization will continue to shape how nations cooperate in the future.
