Teacher's Guide

- **Skill Focus:** Sequencing, vocabulary recall, and understanding narrative structure.
- **Differentiation Tips:**
 - For visual learners, show images or icons representing each event and have them match words.
 - For advanced students, remove the word bank and challenge them to recall all six events from memory.
- **Engagement Ideas:**
 - Create a class "human timeline" where each student represents one event.
 - Encourage students to retell the story aloud in their own words after completing the activity.
- **Extension Options:**
 - Have students write a brief reflection on which moment in the timeline they find most meaningful and why.
 - Connect with art by asking students to illustrate one key event and label it using the correct vocabulary word.
