## Tech Headlines: Real or Ridiculous? Answer Key

1. **C - Needs Human Help** → Sentencing is serious; AI can assist but shouldn't replace human judgment.
2. **B - Unhelpful** → Invasive and unnecessary; shaming citizens isn't productive.
3. **A - Helpful** → Creative use that supports accessibility, though privacy concerns remain.
4. **C - Needs Human Help** → Can inform choices but shouldn't make life decisions for people.
5. **B - Unhelpful** → Weird and invasive for a minor problem; poor balance between privacy and practicality.
6. **A - Helpful** → Great use of predictive analysis that can save crops and livelihoods.
7. **C - Needs Human Help** → Good goal (prevent harm), but scanning private messages is ethically risky.
8. **A - Helpful** → Legitimate creative use of AI; humans still needed for originality and emotion.
