## Dear AI Designer Answer Key

1. **Smart Hall Monitor** → Needs Human Help: Good intent but over-surveillance; adjust for privacy and human oversight.

2. **Robo-Recruiter** → Unhelpful: Reinforces bias; needs fairness checks and diverse training data.

3. **Virtual Pet Therapist** → Needs Human Help: Useful but shouldn't replace real connection or therapy; add usage limits.

4. **Predictive Principal** → Needs Human Help: Can flag concerns but must avoid labeling or self-fulfilling bias.
