

Name _____

Sentence Surgery

Every writer's job is to make sentences stronger, clearer, and more interesting - kind of like a doctor doing sentence surgery. Below are some weak or awkward sentences that need help. Your job: Read each sentence carefully and figure out what's wrong (boring verbs, confusing phrasing, or grammar issues). Rewrite it your way to make it sound better. Ask **Google Gemini** to rewrite it, too (try: *"Can you improve this sentence for clarity or word choice?"*). Compare both versions and decide which is best - or combine the strongest parts of each.
