| 2. dog  | 7. look |
| 3. map  | 8. seat |
| 4. rat  | 9. the  |
| 5. this | 10. and |

### Teacher's Guide

- **Skill focus:**
  - Practices **CVC** and **CVCC** decoding using a playful word scramble.
  - Reinforces common **Grade 1 sight words** in a new way.
  - Builds phonemic awareness as students blend and segment sounds.
- **Before the activity:**
  - Review each target word orally (without showing the scrambled form yet).
  - Write one scrambled word on the board (for example, "tac") and model how to say each sound and rearrange the letters to make **cat**.
  - Remind students to check that the word they make is a real word that they know.
- **During the activity (differentiation and support):**
  - Read each scrambled word aloud, one at a time, for students who need support with decoding.
  - Have students lightly underline vowel letters first to help them spot the middle sound.
  - Allow advanced students to work independently and then check a partner's paper, explaining how they knew each answer.
