

Name _____

Dog's Summary Answer Key

Sample Summary Using Frame:

- This story is about **a dog named Max and his missing ball.**
- The main problem is **his ball rolled under a bush.**
- The dog solved the problem by **digging a hole.**
- In the end, **Max found his ball and was happy.**

Teacher Guide:

This worksheet helps students practice **summarizing** by using sentence starters to focus only on the most important details: *who/what, problem, solution, ending*. Encourage them to avoid extra details like "dirt flew everywhere," since summaries focus on the big ideas. The drawing task reinforces comprehension by letting them show the solution visually.
