| 3. puppy   | 8. run     |
| 4. bedtime | 9. cookies |
| 5. rain    | 10. blue   |

### Teacher's Guide

- **Skill focus:**
  - Builds early **vocabulary usage** in complete sentences.
  - Strengthens **context clue** skills as students choose the word that makes sense.
  - Supports reading fluency with short, simple Grade 1 sentences.
- **Before the activity:**
  - Read the **Word Bank** aloud and briefly discuss each word using quick examples or pictures.
  - Model one sentence on the board, thinking aloud about which word fits best and why.
- **During the activity (differentiation and support):**
  - Allow some students to highlight clue words, such as **morning**, **puddles**, or **crayon**, before choosing the answer.
  - Let stronger readers work independently, then pair them with a classmate who needs help for a quick check.
- **Extension ideas:**
  - Ask students to choose 2 or 3 completed sentences and draw a small picture to match each one.
  - Have students create one new sentence of their own using any word from the **Word Bank** on the back of the worksheet.
